CLASS GUIDELINES

Classes are structured so that the children can enjoy themselves and experience making music as fun. However, for the enjoyment of everybody, please read the following:

- ♫ YOUR CHILD/REN IS/ARE YOUR RESPONSIBILITY THROUGHOUT THE SESSION - please watch your child/ren at all times. Rhythm Express accepts no responsibility for the behaviour of children under the supervision of their parent/carer at the classes.
- ♫ For the safety of all children please do not let your child run in class. Please be particularly aware of this when the parachute and the bubble machine are being used and when the children are using instruments.
- ♫ No children behind or under the table where the props and instruments are kept - please! This is for their safety as much as to safeguard any equipment.
- ♫ Please try to discourage children from putting instruments and props in their mouths - this is for both safety and hygiene reasons.
- ♫ Children (especially those under 2) are not expected to stay seated the entire time - a little wandering is fine, dancing and self-expression are encouraged, provided they do not disrupt the class (so no running in circles around the group!). Please note that if a child persistently behaves in an inappropriate way (including throwing instruments and pushing or hitting other children) the child should be taken out of the session.
- ♫ Please bring your child to sit back down during the listening section and also after knocking on the music box.
- ♫ Save your conversations for after the class - in particular, please don't talk through the listening and Music Man sections as this makes it hard for the children to follow what's going on.
- ♫ Please switch your mobile phone to vibrate or silent ring and answer it outside of the class.
